4. My individual circumstances are the following:

In 2016, I voted at Shadowbrook Church. I went online and discovered that my polling place had changed. I do not recall receiving any notice that my polling place had changed. I got to my polling place at 361 Main Street

(Suwanee Public Library). I got there at 5 minutes to 7am. There were maybe 30-50 people already in line. About 10 minutes later, one of the poll workers came out and apologized for the delay but said that there was an issue that they were trying to correct relative to the machines. She gave no further information but that she would let us know when we could vote.

Thirty minutes later (about 7:45am) she came out and apologized and stated that none of the machines were working. The line had grown. She offered the choice of provisional ballots or for people to stay in line until the issue was resolved. She told some of the people that their provisional ballots would not be counted until the following Tuesday, not all of the people who took provisional ballots heard this announcement. I did not witness anyone who got a provisional ballot being given any type of receipt and I was not previously aware that one was required. I witnessed less than five people who accepted one.

The poll worker offered to create a list for those who decided to stay. She said that none of the machines were reading the voter cards. They sent another poll worker to Lawrenceville to get new cards in hopes that it would rectify the situation. A few people asked how long it would take. She didn't know but guessed 1.5-2.0 hours depending upon traffic. Within a matter of five minutes, of the 70+ people who were in line, about 90% of the people just left. This was so disheartening to me because I knew that many of them would not come back.

Fortunately, I had the flexibility to remain until I could cast my vote on a machine.

I also witnessed a few people who came to this polling place after being sent from another polling place where they were told that they were at the wrong place. I believe they were offered provisional ballots but I'm not certain if they took them. Both were African-American. The male was adamant that he was at the correct polling place. I'm not sure what happened for him.

Eventually, I asked if there was protocol for testing the machines. The poll workers said that they test the machines but don't test the cards that go into the machines. What sense does that make? The gentleman who went to get the cards came back at 9:40am. They DID test those cards and they worked fine. I was able to vote and be in and out in less than ten minutes. The delay of 2.5 hours left several people without the chance to vote - how many, I don't know. Voting should not be this difficult under any circumstances. Eligible voters should be able to vote under the simplest terms possible.

5. I give this Declaration freely, without coercion, and without any expectation of compensation or other reward.
6. I understand that in giving this Declaration, that I am not represented by a lawyer. Nor has any lawyer asked me to be their client or to serve in anyway as anything other than a witness in this litigation.

7. In accordance with 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Further affiant sayeth not, this the __20__ day of December, 2018.
